Preface

The '**Grenada Drug Epidemiology Network (GRENDEN) Annual Report, 2019**', is presented in two volumes; Volume I, presented under separate cover, describes the nature and extent of the drug situation in Grenada, for the year 2019. It highlights key events and actions in the area of drug control in areas such as drug-related arrests, seizures, convictions, incarcerations, financial crimes, treatment utilization, tests for the presence of drugs, criminal deportees to Grenada, and firearms, ammunition, explosives and other related materials, and mechanisms to prevent diversion of pharmaceuticals. The report also includes a comparison of data for the years 2017 to 2019.

Volume II, which is presented hereunder, provide tables with statistical data on the areas listed above, which were obtained from the GRENDEN categories of Indicators.

A handwritten signature in blue ink, appearing to be 'AM'.

Grenada Drug Epidemiology Network (GRENDEN)

Grenada Drug Epidemiology Network (GRENDEN)

GRENDEN is the mechanism through which Grenada collects, analyzes, and disseminates information on drugs, and related information, for the purpose of monitoring trends, developing policy, and implementing appropriate programmes and responses.

Objectives

- i. To provide accurate, relevant and timely statistical data on the nature and extent of the drug situation in Grenada;
- ii. To increase coordination, dialogue, and cooperation among the institutions which work in the area of drug control, through the exchange of drug-related statistical information, and
- iii. To inform policy makers and the general public on drug trends and related matters.

The Drug Control Secretariat functions as the National Drug Observatory (NDO). It performs the administrative functions of GRENDEN.

Participating Ministries, Departments, Institutions

GRENDEN covers several Government Ministries/Departments and private institutions, through its Indicators:

1. Ministry of Health
 - i. Medical Records Office, General Hospital
 - ii. Rathdune Psychiatric Unit
 - iii. Carlton House
 - iv. Mt. Gay Psychiatric Hospital
 - v. Princess Alice Hospital

- i. Importation of cannabis from South America, via Venezuela. This strain of cannabis or “Creepy” as it is known by, differs to that of the locally produced cannabis, and the cannabis from St. Vincent and the Grenadines (referred to as ‘Vincy weed’). It can be easily identified by its colour and scent. Users have claimed that it is more potent than the Vincentian weed, and it is sold at \$5,000 per lb.
- ii. An increase in Narco Criminal activities on the sister island of Carriacou, which saw the need to implement a dedicated Operational Team of officers along with a Coast Guard Safe boat, to tackle those problems. Since its implementation, there was a shift in these activities, further North, into the Grenadines.
- iii. No new drugs were identified.
